

# NetworkAIR<sup>®</sup> IR Plenum Kit — Installation

## Inventory

Screw — M6-1 × 12, tapping (2)

M6 Flanged Hex Nut (2)

M6 Serrated  
Lock Washer (4)

24-inch ground wire (2)

Plenum (1)

For safety, use at least two people to move and install the plenum.

## Tool required (provided)

T 30 Torx<sup>®</sup> bit

## Install the plenum

**Heavy**

Lifting and placement of the plenum requires at least two people.

1. Place and center the plenum on top of the NetworkAIR Module.

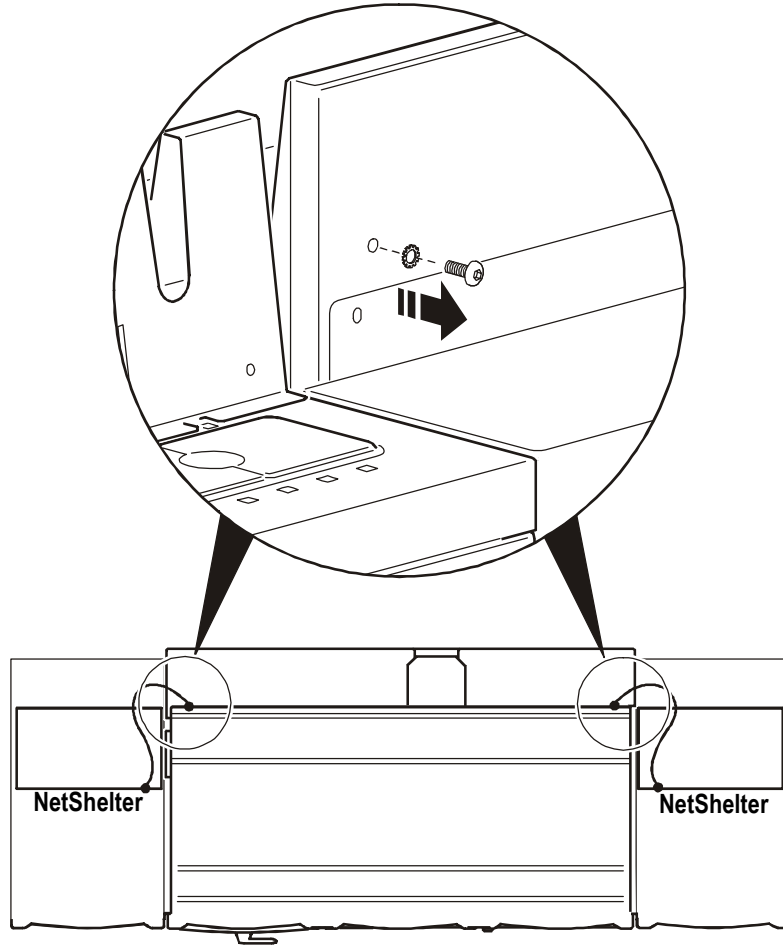

2. Install two (2) M6-1 × 12 tapping screws through the front flange of the plenum and into the module.

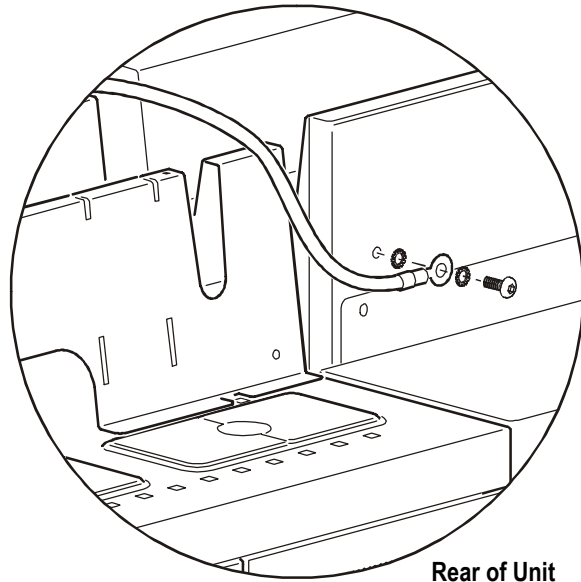

## How to ground the plenum

The plenum ships from the factory with grounding screws and washers fastened in place.

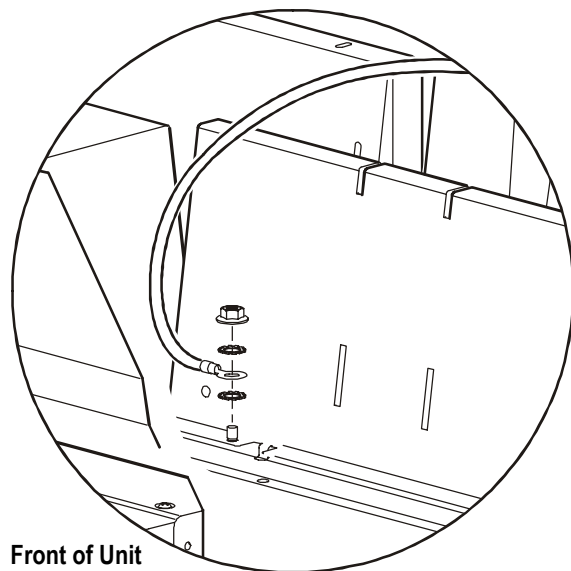

1. Remove the screws and washers, and save them for attaching the grounding wires to the plenum.

2. Attach one end of a ground wire (provided) to the plenum using the previously removed screw and washer, along with one new washer (provided). Route the ground wire over the shielding trough.
3. Repeat step 2 for the other end of the plenum.

4. Attach the free end of the ground wire to a ground stud on the shielding trough, and secure it with two (2) M6 washers and one (1) M6 nut (provided) as shown.
5. Repeat step 4 for the other side of the plenum.

## APC Worldwide Customer Support

Customer support for this or any other APC product is available at no charge in any of the following ways:

- Visit the APC Web site to access documents in the APC Knowledge Base and to submit customer support requests.
  - **www.apc.com** (Corporate Headquarters)  
Connect to localized APC Web sites for specific countries, each of which provides customer support information.
  - **www.apc.com/support/**  
Global support searching APC Knowledge Base and using e-support.
- Contact an APC Customer Support center by telephone or e-mail.
  - Regional centers:

Direct InfraStruXure Customer Support Line	(1)(877)537-0607 (toll free)
APC headquarters U.S., Canada	(1)(800)800-4272 (toll free)
